General Policies

1. It is strongly recommended that a veterinarian be involved in any submission as WADDL does not provide treatment recommendations.

2. Non-Washington samples will be assessed a 50% surcharge.

3. Client information provided to WADDL and the test results from it are kept strictly confidential. Such confidential information will not be released to third parties without consent of the client/veterinarian of the record except as required by law.

4. WADDL reserves the right to send specimens to outside reference laboratories to perform testing not done by WADDL. Sample size and analysis in outside laboratories are at the client’s expense.

5. It is strongly recommended that a veterinarian be involved in submitting a specimen to WADDL. Contact WADDL in advance to arrange schedule and fees.

6. Fees are subject to change without notice.

7. Specimens submitted for examination may undergo additional diagnostic testing to state or federal regulatory authorities upon request due to mandates or involvement of non-regulated species.

8. Samples submitted to WADDL may be used for test development or other research-related purposes.

Aquatic Health Diagnostic Testing

1. General Policies

   1. It is strongly recommended that a veterinarian be involved in submitting a specimen to WADDL. Contact WADDL in advance to arrange schedule and fees.

   2. Non-Washington samples will be assessed a 50% surcharge.

   3. Client information provided to WADDL and the test results from it are kept strictly confidential. Such confidential information will not be released to third parties without consent of the client/veterinarian of the record except as required by law.

   4. WADDL reserves the right to send specimens to outside reference laboratories to perform testing not done by WADDL. Sample size and analysis in outside laboratories are at the client’s expense.

   5. Fees are subject to change without notice.

   6. Specimens submitted for examination may undergo additional diagnostic testing to state or federal regulatory authorities upon request due to mandates or involvement of non-regulated species.

   7. Samples submitted to WADDL may be used for test development or other research-related purposes.

Aquametic General Policies

1. It is strongly recommended that a veterinarian be involved in any submission as WADDL does not provide treatment recommendations.

2. Non-Washington samples will be assessed a 50% surcharge.

3. Client information provided to WADDL and the test results from it are kept strictly confidential. Such confidential information will not be released to third parties without consent of the client/veterinarian of the record except as required by law.

4. WADDL reserves the right to send specimens to outside reference laboratories to perform testing not done by WADDL. Sample size and analysis in outside laboratories are at the client’s expense.

5. Fees are subject to change without notice.

6. Specimens submitted for examination may undergo additional diagnostic testing to state or federal regulatory authorities upon request due to mandates or involvement of non-regulated species.

7. Samples submitted to WADDL may be used for test development or other research-related purposes.

Immunohistochemistry

1. It is strongly recommended that a veterinarian be involved in any submission as WADDL does not provide treatment recommendations.

2. Non-Washington samples will be assessed a 50% surcharge.

3. Client information provided to WADDL and the test results from it are kept strictly confidential. Such confidential information will not be released to third parties without consent of the client/veterinarian of the record except as required by law.

4. WADDL reserves the right to send specimens to outside reference laboratories to perform testing not done by WADDL. Sample size and analysis in outside laboratories are at the client’s expense.

5. Fees are subject to change without notice.

6. Specimens submitted for examination may undergo additional diagnostic testing to state or federal regulatory authorities upon request due to mandates or involvement of non-regulated species.

7. Samples submitted to WADDL may be used for test development or other research-related purposes.

Infectious Agents—Viruses

1. It is strongly recommended that a veterinarian be involved in any submission as WADDL does not provide treatment recommendations.

2. Non-Washington samples will be assessed a 50% surcharge.

3. Client information provided to WADDL and the test results from it are kept strictly confidential. Such confidential information will not be released to third parties without consent of the client/veterinarian of the record except as required by law.

4. WADDL reserves the right to send specimens to outside reference laboratories to perform testing not done by WADDL. Sample size and analysis in outside laboratories are at the client’s expense.

5. Fees are subject to change without notice.

6. Specimens submitted for examination may undergo additional diagnostic testing to state or federal regulatory authorities upon request due to mandates or involvement of non-regulated species.

7. Samples submitted to WADDL may be used for test development or other research-related purposes.

Seasonal Viruses

1. It is strongly recommended that a veterinarian be involved in any submission as WADDL does not provide treatment recommendations.

2. Non-Washington samples will be assessed a 50% surcharge.

3. Client information provided to WADDL and the test results from it are kept strictly confidential. Such confidential information will not be released to third parties without consent of the client/veterinarian of the record except as required by law.

4. WADDL reserves the right to send specimens to outside reference laboratories to perform testing not done by WADDL. Sample size and analysis in outside laboratories are at the client’s expense.

5. Fees are subject to change without notice.

6. Specimens submitted for examination may undergo additional diagnostic testing to state or federal regulatory authorities upon request due to mandates or involvement of non-regulated species.

7. Samples submitted to WADDL may be used for test development or other research-related purposes.

Veterinary Laboratory Testing

1. It is strongly recommended that a veterinarian be involved in any submission as WADDL does not provide treatment recommendations.

2. Non-Washington samples will be assessed a 50% surcharge.

3. Client information provided to WADDL and the test results from it are kept strictly confidential. Such confidential information will not be released to third parties without consent of the client/veterinarian of the record except as required by law.

4. WADDL reserves the right to send specimens to outside reference laboratories to perform testing not done by WADDL. Sample size and analysis in outside laboratories are at the client’s expense.

5. Fees are subject to change without notice.

6. Specimens submitted for examination may undergo additional diagnostic testing to state or federal regulatory authorities upon request due to mandates or involvement of non-regulated species.

7. Samples submitted to WADDL may be used for test development or other research-related purposes.
Molecular Diagnostics

PCR for Mammalian Pathogens

- Anaplasma marginale .................................................. $51.00
- Bluetongue/CHV viruses .......................................... $55.00
- BVD (Pooled blood, up to 12 per pool) ...................... $39.00
- BVD from milk, tissue, or single blood ...................... $51.00
- Mycobacterium PCR only (negative PCR with universal primers) ............................................................. $67.50
- Mycoplasma ovipneumoniae ........................................ $50.00
- Helicobacter spp .......................................................... $51.00
- Pasteurellaceae leukotoxin ([lktA gene]) ...................... $51.00
- Malignant Catarrhal Fever (MCF) ............................... $53.00
- Toxoplasma ................................................................. $40.00
- West Nile Virus .......................................................... $52.00

PCR Tests for Fish Pathogens

- Flaviviridae/myxoviruses ............................................. $55.00
- Infectious pancreatic necrosis virus ......................... $52.00
- Infectious salmon anemia virus ............................... $55.00
- Salmon alginiphilus ...................................................... $50.00
- Myxobacterium cerebralis .......................................... $51.00
- Rhabdovirus/salmonanemovirus [SADV] .................. $51.00
- Spring viremia of carp virus (SVVC) ......................... $51.00
- Mycobacterium avium complex by sequencing .......... $145.00
- Yeast nucleotides ......................................................... $35.00
- Mycoplasma pneumoniae ........................................... $55.00
- Direct PCRs (bacteria/myxozoa/ciliate) ..................... $145.00

PCR Tests for Avian Pathogens (see AVFSL price list for additional avian assays)

- Avian influenza—individual* .................................. $50.00
- Avian paramyxovirus (Newcastle’s disease)** ......... $50.00
- Infectious Bursal Disease ......................................... $75.00
- “USDA-APHIS Program testing” .............................. $150.00

Pathology

- Sedimentation ............................................................. $20.00
- Baton (serum—see Trace Mineral screen) .................. $4.00
- Cobalt (tissue—see Trace Mineral Screen) ............... $4.00
- Copper (blood, serum) .............................................. $4.00
- Manganese (blood, serum) ...................................... $5.00
- Nickel (blood, serum) ................................................ $4.00

Toxicology

- Additional analyses, including soil, water and plant testing, may be available through the Analytical Sciences Laboratory. Please call for assistance. See salvet.washington.edu or Out-of-State prices.

Individual

- Acetaminophen.......................... $23.00
- Albuterol ........................................ $23.00
- Ammonia ........................................ $18.00
- Arsenic (blood, urine) ....................... $44.00
- Barium (see Trace Mineral Screen) ....... $25.00
- Cadmium (blood, urine) .................... $44.00
- Cadmium (see Trace Mineral Screen) .... $44.00
- Calcium (see Trace Mineral Screen) ...... $44.00
- Carbohydrates ........................................ $2.50
- Chlorinated Herbicide Screen .......... $100.00
- Chromium ........................................ $42.00
- Chromium (see Trace Mineral Screen) .... $42.00
- Copper (blood, urine) ......................... $34.00
- Copper (see Trace Mineral, Trace Mineral & Copper Screen) ........................................ $42.00
- Copper (tissue) ........................................ $34.00
- Copper (see Trace Mineral, Trace Mineral & Copper Screen) ........................................ $42.00
- Fluoride ............................................ $18.00
- Glufosinate Penoscultate ....................... $25.00
- Iron (serum—see Trace Mineral screen) ........ $19.00
- Iron (tissue—see Trace Mineral Screen) .... $25.00
- Lead .................................................. $33.00
- Lead (tissue—see Trace Mineral Screen) ........ $33.00
- Magnesium ........................................ $34.00
- Magnesium (blood, serum) ................. $44.00
- Magnesium (tissue—see Trace Mineral Screen) .... $34.00
- Manganese ......................................... $34.00
- Manganese (tissue—see Trace Mineral Screen) .... $34.00
- Mercury (blood, tissue) ............................ $36.00
- Metaldehyde ..................................... $90.00
- Molybdenum (plasma) ....................... $44.00
- Molybdenum(tissue—Trace Mineral Screen) .... $44.00
- Manganese & Nickel (tissue—Trace Mineral Screen) ........................................ $44.00
- Phosphorus ....................................... $50.00
- Phosphorus (serum—see Trace Element Screen) .... $50.00
- Plant/Mushroom/Blue-Green algae (cyanobacteria) Identification $10.00
- Salinomycin (see Ionophore screen) ...................... $50.00
- Selenium .......................................... $50.00
- Selenium (see Trace Mineral & Selenium & Copper Screen) ........................................ $50.00
- Sulfur ................................................ $50.00
- Zinc (see Trace Mineral & Trace Mineral Screen) .... $50.00
- Zinc (serum—see Trace Mineral Screen) ............ $50.00

Virology

- Bovine Virus Diarrhea Virus—Persistent Infection (PI) .... $7.00
- Isolation in cell culture (includes up to 3 samples) .... $51.00

* BVD Ag-ELISA testing on individual samples with a PCR positive pool.

** Individual retail price not available as it is subject to change based on availability.
